Description

- The composition is the timeless theme of contemplation in the manner of Alberto Giacometti.

- Physical characteristics have been removed and reduced to create a pared down form which accentuates how the viewer receives and responds to this thinking/meditative man in a relaxed pose being with himself and what is around him.

- The organic hand working is highly textured defining the work creating different perspectives and contours.

- Modelled in resin with antique bronze finish - Signed Mendes - Alberto Giacometti is best known for his elongated figures, often walking or standing, as well as figural groupings in different spatial situations. Giacometti's unique vision whittled his subjects down to heavily worked but stick-thin figures. - Opportunity to purchase a sculpture in the manner of one of the most important sculptors of the 20th century at a fraction of the cost of an original.
